Journal of
MEDICAL SYSTEMS

Volume 13, Number 1 **February 1989**

CONTENTS

ARTICLES

The Relationship of Age, Level of Formal Education, and Duration of Employment Toward Attitudes Concerning the Use of Computers in the Workplace 1
Margaret Calhoun, Douglas Staley, Linda Hughes, and Marcie McLean

Evaluation of an Advance Surgical Scheduling System 11
Julie C. Lowery and James B. Martin

Reporting Results from a Clinical Pharmacological Laboratory Using a Microcomputer 25
J. S. Cridland

A PC-Based System for Visual Evoked Potential Studies 31
Evangelia Micheli-Tzanakou

Applications of Staffing, Scheduling, and Budgeting Methodologies to Hospital Ancillary Units 37
Myeng-Ki Kim and Walton M. Hancock

Journal of
MEDICAL SYSTEMS

Volume 13, Number 2 April 1989

CONTENTS

ARTICLES

The Calcium-Phosphorus Metabolism Expert System Module: A Program Developed in the ALEX Smalltalk/V Shell 49
Evlin L. Kinney, Robert J. Wright, II, and John W. Caldwell

The Difference Between Interfaced and Integrated Systems 55
Robert M. Curtice and John P. Glaser

Computer Based Information Systems in Primary Health Care—Why? 59
Khalid Moidu and Ove Wigertz

A Final Adjustment for Staff Allocation Under Environmental Uncertainty 67
Angus Jeang

The Natural Language Processing of Medical Databases 79
Ralph R. Grams and Z. Ming Jin

Diagnostic and Treatment Support for the NASA Space Program Astronauts 89
Ralph R. Grams and Z. Ming Jin

Automated Processing of Narrative Medical Text—A New Tool for Clinical Drug Studies 95
Elmer R. Gabrieli

Expert Systems in Laboratory Medicine: A Practical Consultative Application 103
Hugo C. Pribor

Journal of
MEDICAL SYSTEMS

Volume 13, Number 3 June 1989

CONTENTS

ARTICLES

Statistical Approaches to Nonstationary EEGs for the Detection of Slow Vertex Responses 111
Mariko Fujikake, Satoki P. Ninomija, and Hideki Fujita

Using Demographic Data for Ambulatory Health Care Planning: A Dental Health Practice Management Model 131
Robert J. Rydman and Bernard H. Baum

Computer Aided Manual Leucocyte Differential Counting 145
Arthur A. Eggert, Donald J. Becker, Kenneth A. Emmerich, Randi A. Matthews, and Rebekka M. Eggert

Using Mathematical Programming to Assess the Relative Performance of the Health Care Industry 155
Yueh-Guey Laura Huang

Advanced Multi-Attribute Scoring Technique (AMAST): A Model Scoring Methodology for the Request for Proposal (RFP) 163
Steven F. Mandell, Joan Rothenberg Duke, and Drew Taliaferro

Alternative Test Sequences for HIV Screening of Donated Blood 177
Harriet H. Imrey and Ben T. Williams

Journal of
MEDICAL SYSTEMS

Volume 13, Number 4 August 1989

CONTENTS

ARTICLES

An OnLine Tests Catalog for Clinical Laboratories 187
Boaz Lazinger, Jacob Steif, and Edna Granit

Exclusive Arrangements in the Hospital Industry 193
Erwin A. Blackstone and Joseph P. Fuhr, Jr.

A Microcomputer System for Clinical Signal Analysis of Vestibular Laboratory 205
Martti Juhola, Ilmari Pyykkö, and Heikki Aalto

A Computer Aid for Choosing HMOs: Design of a New Interface 215
Farrokh Alemi and Mana Alemi

Informating, Not Automating, the Medical Record 221
Bruce A. Friedman

Cognitive Match Interface Design, A Base Concept for Guiding the Development of User Friendly Computer Application Packages 227
Richard Coll and Joan H. Coll

Journal of
MEDICAL SYSTEMS

Volume 13, Number 5 October 1989

CONTENTS

ARTICLES

Medical Education and the Role of Computers—As Seen Through the Eyes of a Medical Student 237
Scott A. West

A Parallel Implementation of the ALOPEX Process 243
L. Melissaratos and E. Micheli-Tzanakou

A Generalized Laboratory Software Package—A Prototype Approach 253
Boaz Lazinger

A Computerized Kinematic Diagnostic System 261
Richard H. Eckhouse, Jr., Ruth A. Maulucci, and Elizabeth Leonard

A Coded Summation Method to Measure Evoked Responses of Human Beings 275
Mariko Fujikake, Satoki P. Ninomija, and Hideki Fujita

DMSS—A Computer-Based Diabetes Monitoring System 293
Moshe Zviran and Richard Blow

Journal of
MEDICAL SYSTEMS

Volume 13, Number 6 December 1989

CONTENTS

ARTICLES

A Clinical Database Management System for Improved Integration of the Veterans Affairs Hospital Information System 309
Robert D. Andrews and Charles Beauchamp

The Implementation of a Knowledge-Based Pathology Hypertext under HyperCard 321
Allan H. Levy and Donald R. Thrush

Developing a DSS for a Distribution Facility: An Application in the Healthcare Industry 331
Ahmed S. Zaki

Long-Term Data Storage in a Clinical Laboratory Information System 347
Arthur A. Eggert and Kenneth A. Emmerich

A New Electronic Medical Nomenclature 355
Elmer R. Gabrieli

A Strategy for Coordination of End-User Computing in Hospital Departments 375
Jeffrey Soar
